

The Adair County News.

VOLUME XVIII

COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY, FEBRUARY, 24, 1915.

NUMBER 17

Jamestown.

Notwithstanding the roads were almost impassable, a fair crowd of people was in Jamestown Monday, the first day of the present term of circuit court. The witnesses in the case against John Davidson, who killed Felix Long, near Sano, three weeks ago, were all in town and an indictment was evidently returned Tuesday. The case against Silas Sullivan, charged with being implicated in removing indictments from the circuit court clerk's office, will be called during the term. A continuance will probably be asked. There were a few good horses offered for sale during the day. There were no mules on the market. Mr. H. H. Dunbar, who purchased Mr. G. F. Jones' stock of drugs, is looking for a registered salesman, in order to conduct the business. He thinks he will secure one in a very short time. Mr. R. E. Lloyd, who recently took charge of the Patterson Hotel building, is making a very accommodating landlord, is feeding well, and is having a fine run of trade. The grand jury and petit jury of the present term is composed of Russell county's best citizens and they are no doubt doing their duty. The people of Russell are all interested in good roads and are willing to be taxed to build them.

Won One, Lost Two.

The Lindsey-Wilson Basket ball team left here last Thursday week and journeyed to the Blue-Grass, stopping at Campbellsville to play the first game, against the High School boys of that place. The game was witnessed by a good audience, and it terminated in favor of the Lindsey-Wilson, 29 to 20.

At Danville the game was spirited and at one time it looked like there would be a draw, but at the windup Danville made one score to the good.

From Danville the boys went to Richmond and there met the Eastern Normal team where they met defeat, the score standing 32 to 13.

Wesley, who is the "crack" player of the Lindsey-Wilson team, was out of commission, not able to play in the two first games, but he attempted to do the best he could at Richmond. He was not himself and played with great difficulty.

The boys enjoyed the trip and say that they were royally treated at each stop.

Death of Miss Maud Jackman.

Last Sunday night at 8:30 o'clock, Miss Maud Jackman, the oldest daughter of Mrs. Laura Jackman, succumbed to the inevitable and closed her eyes in death.

Miss Jackman was nineteen years old, and had been sick for about six months. At times she appeared to be improving and hope was entertained for her recovery. Sunday forenoon she was taken worse and it soon became apparent that the end was approaching.

She was a very deserving young lady, modest in her demeanor, and was very much liked by her many friends. When she took sick she was a student in the Columbia Graded School and it is our information that the teachers and pupils were very fond of her.

Several years ago she made a profession of her faith in Christ, united with the Methodist Church, and lived a consistent member until the final dissolution.

The funeral services were held at the M. E. Church S. Monday afternoon, conducted by Rev. J. S. Chandler, in the presence of a large concourse of relatives and friends. The interment was in the Masonic lot, city cemetery. Loving friends brought many flowers.

LAMENTABLE DEATH.

Dr. W. R. Grissom, Who Was a Prominent Physician, Crosses to the Other Side.

His DEMISE A SHOCK TO THE COMMUNITY.

Last Monday morning at 12:30 Dr. W. R. Grissom, who had been a prominent physician of this place for more than twenty years, peacefully met his God, in the presence of his family and a few friends. His passing was a shock to the entire town, as he had been active in his profession for many years. He will be sadly missed not only by his immediate family, but by the whole county of Adair.

The deceased was born and reared in the Breeding section where he commenced the practice of his profession, removing to Columbia about twenty years ago. He was 62 years old and was skilled in the profession and was a man who had the confidence of the people, his correct manner of living being known throughout the county.

Dr. Grissom was a member of the Presbyterian Church, this city, and a few years after taking membership he was made a ruling Elder and held that position when death came.

While he had been in declining health for several months, his passing was a great surprise, as he was on the square, meeting his friends and writing prescriptions a few days before the summons came.

Besides his wife he leaves two sons, Mr. Grover Grissom and Dr. Garlan Grissom, all of whom have the sympathy of this community. We commend them to a loving God who can and who is willing to comfort them in this hour of their greatest sorrow. Especially do the people feel for the surviving companion, who was perfectly devoted to a loving and faithful husband.

The funeral services were held at the Presbyterian Church Tuesday forenoon at 10 o'clock, in the presence of a large congregation conducted by Rev. C. C. Brown, of Louisville, assisted by local ministers. At the close of the services all that was mortal of an upright citizen was laid to rest in the city cemetery.

The floral offerings were many and beautiful.

Misses Martha Beck and Ovalene Humble, Messrs. Claud Beck and Melvin Powell, of Russell county, and Robert Bibb, of Green county, visited at J. A. Breeding's last week.

Eld. Z. T. Williams, who was sick for two weeks, was able to leave his room last Wednesday. It is hoped that in the future he will be well enough to meet his appointment.

Mr. G. F. Jones, of Jamestown, who has been confined to his room with a chronic trouble for several weeks, improves very slowly. A News man called to see him last week, finding him looking much better than he expected, yet his doctor will not give his consent for his patient to leave his room. Mr. Jones' friends believe and hope that he will be able to get out when spring opens. He is a very useful man, one who has many friends who are anxious concerning his condition.

Y. M. C. A. Gospel Team announced last week that they would hold services at the Christian church, but at present they will only hold two services.

At the Baptist church, Sunday morning Feb. 28, at 11 o'clock, Mr. Jo Calhoun and Rev. Marvin Perryman, subject, "The Christian Warfare."

At the Pres'y church that evening at 7 o'clock, will be a union service, with the following speakers: Rev. J. A. Vire, Mr. Guy Stephenson, Mr. S. R. Duvall, Rev. Marvin Perryman. Every body is cordially invited to attend these services.

Good Roads Movement.

On the 12th and 13th of February, the Adair County Fiscal Court was in session for the purpose of considering the question of entering upon a system of making good roads in Adair County. This meeting was called and held upon the instant demand of great numbers of the citizens of the county. The Legislature of the State has enacted a law by which a tax of 5c on each hundred dollars of the taxable property of the whole State is levied and to be used for the promotion of good roads in the State. By this act it is proposed to supplement the amount that each county may raise by local taxation for roads by an equal amount. This meeting was attended and the question discussed by quite a number of the citizens from all sections of the county.

Whether the county should adopt this measure or not, still the citizens of the county would have to pay its quota of the State tax, which would be used in aid of counties which do adopt this system. It is said that upon a standing vote being taken by the persons present, all favored the proposition except two and the vote of the Justices showed all of them favoring the move except one. While this if carried out, is the greatest benefit that could be conferred upon the county, taken as a whole still it is a big undertaking, and a costly one. In fact, no county has or ever will have good roads without the expending of large sums of money. But it is claimed that by reason of the improved opportunities of profit and enjoyment, that these roads will afford the people, including the increased values of the real estate, will make it a very profitable investment.

But it must be understood that good roads can not be built all over the county at one time or in any very short time. Under this law the first roads will have to be built on the ways leading from one county seat to another, and that these roads have to be approved by the State Road Engineer and if not so built the State will not supplement the County fund. Again, only so much road can be built per year, as the county and state fund will pay for, but eventually, if the plan is carried out, the roads will reach all parts of the county. Such roads should first be built that will connect us with railroad and navigation, if practicable. Now in the building of these roads every body is supposed to be benefitted. The benefits, as a general rule, will redound more to the interest of the larger property holders, as they will receive the more benefit of the road by this use and the increase of the value of their property. But, if justice prevails, and it should be made to prevail, at all hazards, the greater holdings of property a man has, the greater amount he will have to pay toward their constructions and the less property a man has and the less use to be made of the roads, he needs, the less he will have to pay. So, it is the duty of every citizen and tax-payer to pay his proper proportion of the tax and see that every other one does the same. Every man has a right to and should exercise the right of examining every other man's tax list and see that his property is properly listed, and if this is done it will very greatly increase the amount of money that will be raised. There is no trouble about the poor man or medium man for what he has is always in sight and easily reached. As to the man that has the reputation of being wealthy or claims to be wealthy, make him show up and put up or shut up. The fact is apparent, if one will take the pains to investigate the tax list, that there is either very much less wealth in the county than is supposed to be, or it is not taxed. An amendment should be added to the law by the next Legislature so as to require regular teamsters or the users of Motor Vehicles for hauling freight, to pay license taxes on their vehicles, for the reason that they use and damage the roads out of proportion to all other persons.

Mr. and Mrs. T. C. Davidson left for Liberty last Sunday morning, being called there to attend the funeral of Mrs. Annie E. Warriner, who was a sister of Mrs. Davidson, and who died in Colorado, last week, where she had gone in quest of health. The funeral was expected to take place in Liberty Monday. Mrs. Warriner was between fifty and sixty years old, and was a lady highly respected.

The Game at Monticello.

The Columbia High School basket ball team left Friday at noon for Monticello, where they played the Monticello High School Saturday night. The trip was a pleasant one from the time the visitors left home, except for the walking which the High School boys did. The boys declare they took the hack instead of the hack taking them. The score was close till near the latter part of the first half, when Monticello took the lead through the fancy goal shooting of Patton. At the end of the first half there score stood 16 to 8. During the last half Monticello kept increasing the score till the whistle blew the score was 48 to 13 in favor of Monticello. Not a single event happened during the game to make things unpleasant for either team. All the Monticello boys played a good game. The C. H. S. boys kept their heads well and deserve credit for what little they did against such large players on the opposite side.

Barger, Holladay and Lewis each got a field goal. Diddle pitched 7 out of 8 fouts.

After the game the Monticello High School entertained at the school building in honor of the Columbia visitors. This was indeed a very pleasant affair.

Lindsey-Wilson Victorious.

The Lindsey-Wilson Basket Ball team cleaned up the Eastern Kentucky State Normal Quintet before a large audience here Thursday night by the score of 31 to 10. Normal School played hard from the beginning to the last whistle, but the local club was far superior in both team work and goal shooting. The visitors scored only two field goals, while every man on the Lindsey club made one or more baskets.

Wesley was back at center for Lindsey. Although not having fully recovered from the injury he received in the game with Danville High School, he played his usual good game.

The team of Lindsey featured the contest. Lineup as follows: Eastern Normal Lindsey-Wilson Bruner F Sullivan Kilburn F Lewis Shepherd C Wesley Kelly G Calhoun Reid G Cook Field goals Kilburn 1, Shepherd 1, Sullivan 2, Lewis 5, Wesley 5, Calhoun 1, Cook 2. Free Goals Kilburn 6, Lewis 1.

Mr. N. T. Mercer's appointment to become post master at Columbia, to succeed Mr. W. A. Coffey, resigned, was confirmed by the Senate last Saturday week. On Thursday morning following Mr. Mercer received a blank bond which he filled, properly signed, and started it on its return to Washington Friday. His commission will doubtless be received some time this week.

From Alaska.

Fort Liscom, Jan., 26, 1915.

Editor News:

Having seen your Adair County News, I thought perhaps a little news from our frozen north might interest you. We have at present 8 feet of snow, which is unusual for this season of year. As we have from 20 to 30 feet most every winter.

The winters are becoming milder every year and we hope to compete with the warmer climates in farming and rearing vegetables in the near future. Down the Peninsula a few miles from this snow belt, they produce some of the finest vegetable gardens in the world. There is no snow in a great many places Alaska is noted for its beautiful scenery. The hill tops are capped all the year round, while just beneath them, in the valleys, are green grass and shrubbery and the most beautiful wild flowers of many varieties.

We have upon an average of two and sometimes 3 steamers a week, direct from Seattle, Washington, a run of six days in summer months, they are doubles and are crowded with sight seeing tourists.

We have some of the largest glaciers in the world. The valley glacier just back of the town is the largest dead glacier in the world. Its crevices are hundreds of feet deep, and has swallowed up many a prospector and his horse, as that was the trail the first men made in '98 to the interior, but the Government has a fine road from here to Fairbanks, and use large auto trucks for hauling in summer. They also have pleasure seeking autos in valleys. It is the farthestest port north open all year round and has the finest harbors in Alaska.

We have daily papers published here giving sketches of the world's news. A telegraph line from Seattle to the farthestest point of any importance north.

The Government has Posts all along the coast and will begin work in the early spring on the new rail road, extending as far as Fairbanks to the great coal fields.

We have some very fine Power Plants run by natural water fall. I'm enclosing you a picture of Mrs. Frank Muloy, formerly of Kentucky, born and raised at Whitesburg, who is today one of the chief operators in the largest Hydro Electric Power plant in Alaska. It was built in 1913. The latest improved machinery estimated at \$250,000. She is the only woman known to hold a position of this kind. The President of the Co., refuses men daily applying for the job and say he gets better service and has more confidence in Mrs. Muloy than any Electrician he can employ. She has held this important position several months. Mr. Muloy, being in charge of the Plant, through him she has gained her knowledge of Electricity. They also have a son ten years old, who inherits his father's abilities and

makes many useful things and runs with small motors. He has wonderful mechanical ideas. Alaska is also noted for its wonderful productive gold and copper mines, which yields millions annually. They have herds of rein deer, moose and cariboo, on the Yokon river. Many other wild animals in Alaska that are great for their furs. All kinds of game here. Black and brown bear found every where. I will close for this time.

Yours Respt.

How to be Certain of Curing Constipation

Prejudice is a hard thing to overcome, but where health is at stake and the opinion of thousands of reliable people differs from yours, prejudice then becomes your menace and you ought to lay it aside. This is said in the interest of people suffering from chronic constipation, and it is worthy of their attention. In the opinion of legions of reliable American people, the most stubborn constipation imaginable can be cured by a brief use of Dr. Caldwell's Syrup Pepsin. You may not have heard of it before, but do not doubt its merits on that account, or because it has not been blatantly advertised. It has sold very successfully on word of mouth recommendation. Parents are giving it to their children today who were given it by their parents, and it has been truthfully said that more druggists use it personally in their families than any other laxative.

Letters recently received from M. E. Myers, Morrison, Tenn., and Ada Ham-smith, 118 W. Chestnut St., Louisville, Ky., are but a few of thousands showing the esteem in which Dr. Caldwell's Syrup Pepsin is held. It is mild, gentle, non-gripping—not violent, like salts or cathartics. It cures gradually and pleasantly so that in time nature again does its own work without outside aid. Constipated people owe it to themselves to use this grand bowel specific. Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

CHANCE TO MAKE KENTUCKY GREATEST HOG RAISING STATE

10,000 Hogs Fattened From Slops and Distillers' Dried Grains In Daviess County Alone Last Year

(By Stephen Bolles, in Bourbon Stock Journal).

Kentucky can easily be made the greatest hog-raising State in the Union. That has been demonstrated by Daviess county farmers. Last year about 10,000 hogs were fattened in that county on distillers' slops and dried grains.

So successful were the experiments that the L. H. & St. L. railroad provided switches along their lines for the use of farmers to utilize this by-product of the distilleries for feeding

Officially Tested Out.

The official tests of this feed have been very satisfactory in every way. It has the stamp of approval of the best chemists in the agricultural world. Men from experiment stations who know all about food values of different grains and foods have given it the highest recommendation.

The richest agricultural States in the Union are those which lead in hog production. Iowa, with its vast field of corn; Illinois, Missouri and Indiana in the order named, have thousands

One of the many distillers' slop-fed prize winners at the Great Farmer's Barbecue at Daviess County Fair Grounds, Owensboro, Ky., May 30, 1914.

hogs. Special tank cars were also provided for the transportation of both the slops and dried grains.

Makes Prize Winners.

At a great barbecue on the Owensboro Fair Grounds last May, attended by 20,000 farmers and feeders, there were on exhibition scores of fine hogs fattened on distillers' dried grains and slops, and many cash prizes were awarded. Officials from the agricultural department of the State and Federal Government were present and made addresses on the proper care and feeding of hogs and the prevention of cholera. Specimens of distillers' dried grains and slops from various distilleries were also on exhibition and their respective food value were explained by experts.

Fattens Quickly.

One of the greatest advantages in feeding distillers' dried grain is the fact that nothing is lost. The distillers remove only the non-fattening portions of the grain, leaving an average of 40 per cent of protein, which is the element required to fatten stock. It has been supposed by many people that the best way to fatten a hog is to feed hard corn. But corn in the natural state yields about 13 per cent of protein, as much of it passes through the animal undigested. Distillers' dried grains therefore possess about three times the fattening properties of natural corn. By feeding these dried grains with alfalfa, clover or other green stuffs, hogs fatten quicker and better than by the use of corn alone and at very much less cost.

of rich farmers who made their money out of hogs. They feed the raw grain to the porker and sell him at the highest price in the biggest markets of the country. They have no such advantages as the Kentucky farmer has. At our very doors, and at a much lower cost than corn the Iowa and Indiana farmer feeds, we have the feed that will produce the best pork in the world.

The Farmer's Opportunity.

The greatest single industry in Kentucky is its distilleries. This industry pays more taxes for the maintenance of the State than all other manufacturing industries combined. Thousands of tons of slops containing nutritious, fat-producing elements are dumped into the waste heap simply because Kentucky feeders have not waked up to their opportunity. A comparatively small portion of this by-product is dried and shipped to Europe to be used as dairy feed and for fattening hogs.

But why ship any of these dried grains to Denmark and Holland when we can use them here at home up to the full capacity of every distillery in the State, thereby increasing the profits of hog-raising and adding many millions of dollars annually to the wealth of the farmers of the state.

Cheaper Feed Than Corn.

Farmers should sell the corn they raise at the high price it usually brings, and buy, for less money, more and better feed in the form of distillers' dried grains. By doing this they can fatten more hogs at less cost and sell them in the market for larger profits. It is a simple business proposition that should not be overlooked by the farmer.

Roads Worked in 96 Counties in Virginia.

An interesting resume of work accomplished by his department during the past twelve months has been prepared by George P. Coleman, State Highway Commissioner, which reads in part as follows:

"During the twelve months from October 1, 1913 to October 1, 1914, the State Highway department worked in ninety-six of the one hundred counties of the State, working on 403 different pieces of road, and 90 bridges constructing during that time 855 miles of road, at a cost of \$1,767,010. Of this amount, the state contributed \$185,000, direct appropriation and \$116,000, derived from the automobile tax, these two funds being known as state money aid. In addition to this, the state appropriated \$145,000 for the maintenance and support of the convict road force. The remainder was raised by direct levies or magisterial district or county bond issues.

"The state is at the present time maintaining convict camps in thirty counties, and is working in these camps approximately 1,000 convicts from the state penitentiary and between 500 and 600 prisoners from the county jails, making a total from all sources of from 1,600 and 1,700

prisoners who are now employed by the state in road work. The cost of this convict labor to the state per ten hour working day for the state last year was approximately 52 per cent, a small advance over last year.

"I would like to call to the particular attention of the citizens of the state the fact that during the past eight years approximately \$7,000,000 has been expended by the state and counties in road work, building about 2,900 miles of road and several hundred bridges, but that no provision has been made for the maintenance and care of the roads and bridges after their construction, as has been recommended by this department.

"It has been exceedingly difficult to impress on the local road authorities the necessity for the maintenance of the roads after they have been constructed. I cannot urge too strongly the importance of immediate legislation requiring counties or districts to make provision for the upkeep of their roads, for it is certainly very short-sight and very poor business policy to expend large amounts of money in the improvement and general betterment of the roads and then allow them to go to pieces from lack of proper care.

"I would urge that the maintenance of the necessary road main-

tenance legislation be agitated by the citizens of the various counties of the state, and that the members of the new assembly be fully advised of this necessity."—Big Stone Gap Post.

Mesdames Fish Royse and El-nora Bailey, who have been dangerously ill, are much better.

Mr. Edgar Royse came home from Bowling Green to be at the bedside of his mother.

Mr. and Mrs. Gordon Reese and family have moved to this neighborhood, and are residing with Mrs. Reece's mother, Mrs. Nancy Roy.

Mr. Bill Bailey and family and Mr. Jas. Conover and family have also moved to this community. We gladly welcome them all to this neighborhood.

Mr. and Mrs. Thomas Holladay and little daughter, Frances, made a pleasant visit to relatives here not long ago.

Miss Ethyl White from Roley and Miss Etta Bryant, Craycraft, visited friends and relatives at this place last week. We enjoyed playing many games together while they were here.

Mr. and Mrs. Orville Umphrey and Messrs. John and Julian Stapp left for Illinois last week.

The house that Mr. Walker Bryant is having built for Mr. Fitzpatrick, will soon be completed.

We haven't time to dwell on the good roads question, but I want to say that we are right with you on the best plan to get good roads.

There should be a good Sunday School at White Oak every Sunday, and preaching once a month any way. Who is willing to help? If every one would do his part I'm sure these things could be brought about.

There are several denominations represented in this neighborhood, but why cannot we work together for the common good. It has come to pass where they have successful revival meetings, that the different churches all work and worship perhaps thinking of this true saying: "In unity there is strength."

When costive or troubled with constipation take Chamberlain's Tablets. They are easy to take and most agreeable in effect. Pauli Drug Co., Adr.

This is the "Thornhill" Wagon—the Wagon that Must Make Good

The best known materials—the labor of master workmen—the aid of the most ingenious modern machinery have been employed to make the Thornhill wagon.

The wheels are made with excessive care. For the spokes the manufacturers use the finest hickory—machine driven to insure the right dish. The hubs are of oak, thoroughly seasoned and banded with double refined sable iron.

The bolsters are of the best white oak. They have an iron plate at top and bottom, riveted through and through—multiplying their strength.

The "Thornhill" has a malleable front hound plate that is braced to the hounds at all points. This is an exclusive "Thornhill" feature. It prevents the

gears from ever getting out of line and causing hard pulling.

"Thornhill" wagons are equipped with long sleeve malleable—non-breakable skeins that insure light running, and outlast any other skein. Each skein is fitted to its axle with a Defiance machine—infallibly accurate. This machine insures the right pitch and tuck, makes light draft a certainty.

The axles are of toughest hickory—the steel axles of the best refined steel.

The sides of "Thornhill" beds are made of poplar. It costs the makers more—but it holds paint better and gives better service.

Come in and see this wagon—sold under a binding guarantee.

Sold By **WOODSON LEWIS**

FOR CIRCUIT COURT CLERK.

We are authorized to announce Lee A. Lawless a candidate for re-election to the office of Circuit Court Clerk of the County of Russell, subject to the action of the Republican voters of said county, as expressed at the August primary.

MR. GARNETT'S CARD.

Louisville Post.

Mr. James Garnett, the Attorney General of the State, yesterday announced that he will not seek the Democratic nomination for Governor, but will devote the remainder of his term to disposing of the important business that remains in his department to be handled, and will at the expiration of his term return to Columbia to practice his profession.

As Attorney General during the last three years, Mr. Garnett has done a large amount of public work of a lasting character, and he will leave that office deserving well both of the State and of his party. It has been

frequently contended that the post of Attorney General should be made appointive at the hands of the Governor, with a successful Attorney General, of course, eligible for re-appointment. There is much to be said in favor of such a plan, but any Governor would find difficulty in securing as the chief law officer of the State a man who would serve with more ability, energy and success than has Mr. Garnett, who was elected by the people three years ago.

Under the head of Russell County Announcements, it will be seen that Mr. Lee A. Lawless is a candidate for re-election to the office of Circuit Court Clerk, subject to the action of the Republican voters of said county, as expressed at the August primary.

Mr. Lawless was born and reared near Owensby, but for the last twelve years he has resided in Jamestown. He has been an active Republican since and before he was twenty-one years old, and is widely known throughout the county. He is now, by election, filling out the unexpired term of N. B. Faulkenburg, who was elected circuit court clerk five years ago, resigning after he had been in office about two years. Mr. Lawless is a very popular gentleman, and has made a very efficient officer, and he respectfully asks that his record be endorsed by the Republican voters of his county. Some years ago he was a candidate for Sheriff and was defeated by a small majority. There are a great many voters of Mr. Lawless' name in Russell county, but they have not been office seekers, neither have they failed to vote the Republican ticket at each election. Mr. Lawless asks that you give his candidacy due consideration, and if you believe that he is a worthy, upright gentleman, he would be very grateful for your support in the primary, promising that if nominated and elected, not to violate the trust imposed in him. He hopes to see all the voters before August.

During the next Legislature much important business will come before the body, hence it is very necessary that experienced and learned men be the Representatives. Adair and Cumberland make one district and it is largely Republican, making it almost impossible for a Democrat to be elected. There is not a doubt but a Republican will be sent to the Legislature from the district. The Republicans could not make a better selection than Judge H. C. Baker, who knows the laws now in the statutes and who has had experience as a legislator. We do not know whether or not Judge Baker would consent to make the race, but we do know that he is a fine gentleman, well qualified for the position. He was born in Cumberland county where he is personally known, his home having been in Columbia for more than forty years.

Attorney General James Gar-

nett, of Columbia, writes a letter to the Adair County News this week, in which he states that he will not be a candidate for the democratic nomination for Governor this year. This will be quite a surprise to many of Gen. Garnett's friends who had counted on him as a sure entry. He is one of the ablest officials of the State government at Frankfort, and would have had a wide following had he entered. The tip is out, however, that his declination to enter the gubernatorial race, is a certain indication that he will be a candidate for congress in the Eighth district next year.—Stanford Journal.

Col. E. W. Lillard, one of the four Democratic Representatives who were given widespread notoriety when they voted for W. O. Bradley over Gov. J. C. W. Beckham for United States Senator, committed suicide at Danville, last week, by shooting his brains out.

The Pinnacle News of Middlesboro says: In an authorized statement in his home paper, Adair County News, Attorney General James Garnett lets it be definitely known he will not be a candidate for the Governorship in the August primary. It is a source of regret to the many friends of the Attorney General throughout the State and especially in the Eleventh district, where his friends are legion, that he has decided to not make the race, as he was sure of a large vote in the mountains. He is eminently fitted for the position and would, had he been successful, have made an honest efficient public official, something that Kentucky must produce to keep apace with the progress of other states.

The Blue Grass Clipper, which is published in the home county of an announced candidate says: "Attorney General James Garnett has announced his determination not to run for Governor. He sets forth his reasons therefor in a letter to his home paper, the Adair County News, and which was made public on Monday. Mr. Garnett's decision will be a disappointment to many friends in this county who wanted the privilege of voting for him."

Important Educational Notice.

The Kentucky Educational Association for 1915 will meet in Louisville, April 21-24. It is to be the greatest meeting in its more than 40 years of history. We want a large attendance of both teachers and trustees from Adair county. To this end I wish to call a meeting of all the teachers and trustees of the county at the Court-house in Columbia on the first Monday in March. At the same time steps will be taken towards organizing boys' corn clubs. The meeting will be held at one o'clock p. m. I earnestly insist that all teachers, trustees and boys between the ages of ten and eighteen, who desire to enroll in the corn club, to be present at this meeting.

Respectfully,
Tobias Huffaker, Supt. A. C. S.

Cary's Weekly, a neat six column paper published at Burkesville, Cumberland county. S. A. Cary and wife publishers. Mr. Cary is a wide awake young man, and having run a paper before, we predict for him success. Here's wishing you success Mr. Cary.

We regret that when some people have a grievance they send their troubles to the News. This paper is not out of humor with any person, and it can not take up the fight of an individual who has conceived the idea that he has been terribly wronged by outsiders.

Mrs. Fannie Taylor, whose home was in Glasgow, died in Austin, Texas, one day last week. She was the widow of Dr. F. J. Taylor, who was a native of Adair county. The deceased was an aunt, by marriage, of Messrs. L. O. and A. O. Taylor and Ray Conover, all of this place.

Mr. Murray Ball has removed his business from the Store of Neat & Murray to a room next to Mr. Geo. W. Lowe's Shoe Store, on north side of the square.

Good show at the Parlor Circle Saturday night and a good one will be billed for next Saturday night.

Mr. Jack Young is now in the grocery business, having bought a one-half interest in the store of Mr. O. C. Collins, located near the Roller Mill.

Birds of a Feather.

The wife of a Methodist Minister in West Virginia has been married three times. Her maiden name was Partridge, her first husband was named Robins, her second Sparrow, the present Quale. There are now two young robins, one sparrow and three quales in the family. One grandfather was a Swan and another a Jay, but he's dead, now and a bird of Paradise. They live on Hawk avenue, Eagleville, Canary Island, and the fellow who wrote this is a Lyre and a relative of the family.—Valley Enterprise.

HEALTH OFFICER'S COLUMN.

BY U. L. TAYLOR.

I want to speak to the News readers this week about a disease that has been a curse to humanity for hundreds of years. In this county it stands second to consumption in the number of its victims. The name of it is typhoid fever. It is a contagious disease, and is spread largely by the common house fly. Physicians have never been agreed as to its cause or its treatment. I am more interested in its cause than its treatment, but I am more interested in its prevention than either one. It is a disease that originates in filth, and no man ever has had a case of typhoid fever, no man has a case of typhoid, and no man will ever have a case of typhoid fever, unless he gets into his system in some way, a small portion of the contents of the bowels or kidneys of some one suffering from the disease. This is a mighty ugly thing to have to say, but it is better to say it than some one may be warned, so that one may use all the means in his power to avoid it. Typhoid fever kills its hundreds and its thousands every year, and it would be absolutely criminal in me, on account of a little false modesty to neglect to tell the people the truth as to the sole cause of this terrible malady. I have said, and will say again that the common house fly is largely responsible for the spread of this disease. The question then comes up, that if the common house fly is the cause of typhoid fever, and that no human being ever has the disease without getting into the system a portion of the discharges from the kidneys or bowels of some one suffering from it, how can these two statements harmonize? I shall undertake to make this plain before I close this paper. Every body knows if he has noticed the habits and customs of the fly, that filth is its natural habitat. It breeds in the stable manure, in badly kept water closets, in hog pens which are not kept clean, and in every place where filth and dirt abound. We can swat the fly, we can trap him, we can tangle him in tanglefoot, but the only way to utterly destroy him, is to break up his breeding places. It is only a few years ago that the fly was proven to be so dangerous to the health of the people. He had been destroying the happiness of the people ever since the days of Pharaoh. He had been suspected of being a disease carrier for some time, but he had not been proven guilty until the time of the Spanish-American war. In the American camps down in Florida, it was noticed that officers living in screened tents did not have typhoid fever, while soldiers staying in unscreened tents, a large majority of them were infected. The sanitarians of the army led by the medical men, set a snare for the fly which proved a success. They sprinkled a fine white powder around the water closets, and the fly walking over the white powder got it on his feet, and were tracked to the dining rooms, and to the sick soldiers, and the tracks were seen on the provisions on the dining table, showing that the same flies that had visited the water closets were visiting the dining rooms. And we all know and have always known, that flies are remarkably good to visit the sick, and unlike common white folks they visit the sick every day. They do not wait for Sunday when they have nothing else to do, but go daily. And they go where there are no screens, into the dining rooms, swim about in the gravy, crawl over the soft butter, drop into the buttermilk, and sometimes go into the kitchen and help the cook to make up the biscuit. I suppose every body has at some time seen a fly baked up in a biscuit. This is not very appetizing, but it has one redeeming quality, and that is that that fly has been everlastingly put out of commission, with all the disease germs appertaining thereto. You can kill disease germs by baking, by burning, or by boiling, but never by freezing. When the waiters on the table that I have been describing, find flies in the butter, in the buttermilk and in the gravy, they will fish them out, dash them out of the window, and the eaters will go on eating as though nothing had happened. These flies are always germ laden, and you can see how easy it is for them to get into the stomachs of those who are eating at that table. When once in the system, unless the patient has resistive power enough to overcome the germs and throw them off, he will fall a victim to this disease, and will never know how in the world he got hold of it. When a man is sick of typhoid fever in a screened

room, the flies are watching on the outside, and whenever the nurse sets a chamber on the outside, they pounce on to it and in it, and frequently by the time the vessel is carried away, the flies have made way with its entire contents, or if it has been emptied into a privy that is not fly proof, they go to that privy and make a raid on it, and load themselves with the germs of disease, and carry them to other persons who have thus far escaped. Now if any one denies this theory, let him come with a better one, and I will willingly give up mine. But if he cannot do this let him forever afterward hold his peace. But continue to swat the fly.

CANDIDATE FOR SECRETARY OF STATE

G. B. LIKENS

TO THE VOTERS OF KENTUCKY—I am a candidate for Secretary of State, subject to the will of the Democratic party to be expressed in the primary election Aug. 7, 1915. My party loyalty, my availability as a candidate, my conduct as a private citizen and my record as a public official are respectfully submitted for investigation and consideration. For more than three years I have served you as Assistant Auditor, and while the office is not an elective one, the duties are important and exacting. These I have honestly endeavored to discharge properly and efficiently. My experience, I feel, has especially equipped me to fill the office to which I now aspire. If nominated and elected as your Secretary of State, all the energy and ability which I have shall be earnestly devoted to the business of that department. No duty will be too arduous for me to perform faithfully, and none will be considered too trivial to receive careful and prompt attention. Feeling very grateful for the assurances of support already received, and soliciting the votes and influence of all, I am,

Sincerely yours,

G. B. LIKENS.

February 12, was Willie Kane and Lawrence Hadley birthdays. They doubled together at Clay Hadleys for the dinner. There was 54 eat dinner. Such a fine dinner you never saw. They put Willie and Lawrence under the bed. Had singing, praying and a talk from the writer of this letter. Lawrence received some nice presents. Lawrence has been in the army two years. Will have to go back in March to serve two more years. He belongs to the coast artillery, Fort Terry, N. Y. This was a birthday that will long be remembered by those that were present. We were like the Jew soldier that Lawrence tell us about. He went home for a month. He stayed over his time, and when he come back his Captain got after him, the Jew says, well Captain, I will tell you how it was, when the time came for me to start, me father cried, me mother cried me sister cried, me brother cried and me cried too. So we all cried, but we had a good time. It was also Clay and Mollie Silver, wedding day. They had been married 25 years, February 12.

HUSBAND RESCUED DESPAIRING WIFE

**After Four Years of Discouraging
Conditions, Mrs. Bullock Gave
Up in Despair. Husband
Came to Rescue.**

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

TODAY'S WAR NEWS.

Germany has declined to alter her position in consequence of the American note concerning the war zone decree, although expressing the most friendly feelings toward this country. The German reply, a summary of which was cabled from Berlin, states that Germany cannot abandon her position, in view of the attempts of England to cut off the food supply of non-combatants and recommends that the United States send warships to protect American vessels passing through the danger zone. The German decree went into effect at midnight, but there have been few changes in sailings to and from English ports.

Emperor William has telegraphed to the President of the province of East Prussia that the Russians have been completely defeated and driven from the province.

An official communication from Vienna says that the Russians have been defeated in Bukowina, where the Austro-German forces have been advancing recently. The Austrians have occupied Kolomea after a hard battle. A report from the Russian War Office, however, asserts that there is no change in Bukowina. It speaks of ferocious fighting in Northern Poland and says that the Russians have won the advantage in several engagements in Galicia.

Turkey has yielded to Greece and offered satisfaction for the insult to the Greek naval attaché at Constantinople. The incident which led to the departure of the Greek Minister is now closed.

Fourteen members of the crew of the Zeppelin which was destroyed over Fance Island were rescued and will be interned by the Danish authorities. The Zeppelin, one of the largest of the German dirigibles, caught fire while cruising over the island.

RUSSINS ARE BELIVED TO BE IN TIGHT PLACE.

London.—With a solid ring of warships about the British Isles, the first day of the German submarine blockade passed with out incident, so far as the public was informed. Up to nightfall not a single undersea boat has been reported a lifting its crest above the waves. To-night Britannia wears her coronet of light, thousands of searchlights radiating across the waters watching for the heralded commerce raiders. No losses of any kind were reported.

London.—The immediate effect of the German submarine blockade of the British Isles, beginning to-day, was to tie up all passenger traffic from England to Holland. The Scandinavian lines, however, have not as yet been affected.

Both the Zealand and the Batavier lines have canceled all passenger service to Holland, although they are continuing their freight and mail traffic. The Wilson line to Scandinavian ports is running as usual.

The Hague, (via London).—The Government of the Netherlands has refused a request for war vessels to convoy Dutch merchant ships through the marine areas prescribed by Germany on the ground that such action would enhance the risks of ships without such escorts. The Government has advised all shipping firms to instruct their captains to halt their vessels at the first sight of a submarine all desired information concerning the craft and its cargo.

GERMANS CRUISER SINKS FOUR ENGLISH VESSELS.

Buenos Aires, Argentine.—The German steamer Holger, which has arrived here, brings news that during the months of January and February the German auxiliary cruiser Kronprinz Wilhelm, operating on the northern coast of Brazil, sank the British steamer Hemisphere, the British steamer Potaro, the sailing ship Sumatra and the sailing ship Wilfred. The crews of these vessels are on board the Holger.

On the Holger there are also fifty-one passengers of the British steamer Highland Brae, a vessel of 7,634 tons belonging to the Nelson Steam Navigation Company of London, which sailed from London January 3 for Buenos Aires and which was sunk in the Atlantic by a German warship. In addition there are ninety members of the crew of the Highland Brae on board.

The crews of the other vessels given as having been sent to the bottom apparently also were saved, for the Hoiger has on board twenty-seven men from the Hemisphere, forty-seven from the Potaro, twenty-two from the Sumatra and seven from the Winfred.

London.—Insurance was placed at Lloyds to-day at 20 guineas per cent. on policies covering the holder against war between the United States and Germany within six months. One month ago the premium for this same risk and period of time was five guineas per cent.

Washington.—This afternoon the official text of the German reply had not reached Washington, but another message was received from Ambassador Gerard giving an outline of it. Evidently his dispatch had been sent before the official text had been converted into the diplomatic code and started on its way to America. Administration officials read the text as transmitted in the dispatches, and, while declining to comment until the official text had been received, they apparently were gratified with the friendly tone of the German communication.

London.—A solid cordon of guardian warships surrounds the the British Isles, awaiting the heralded coming of the German submarine commerce raiders. Destroyers, gunboats, torpedo boats fast cruisers and craft of every conceivable sort from the British navy, supplemented by many that have been sent from France, have been in constant patrol since long before midnight, when the German proclamation of a maritime "war zone" about Great Britain and Ireland went into effect.

Berlin, (via London).—The official report on the progress of the fighting given out in Berlin to-day says that the Russians taken prisoners by the Germans in East Prussia now amount to 64,000 men.

KAISER TO TAKE CHARGE.

London.—Telegraphing from Copenhagen the Daily Mail's correspondent says he learns from Hamburg that the belief prevails there that Emperor William is going to Helgoland personally to direct Germany's submarine blockade.

"The wheat shortage in Germany," the correspondent adds, "was concealed until the last moment for fear of discouraging the people. It is much greater than has hitherto been believed. Germany will only escape famine before the next harvest by a narrow margin."

Greensburg.

Mrs. Elizabeth Catherine Coakley, widow of the late Thomas Coakley, died Monday night at her old home, Coakley, after many years of invalidism. She was nearing her eightieth year and leaves a brother, Mr. Willie Hazlewood and Mrs. Mary Frances Spillman, a sister, who are octogenarians. She is survived by the following children: Mrs. Florence Butler of Columbia; Mrs. Cassa Burnley of Paducah; Mrs. Robert Cowherd, Bengal; Mrs. Garnett Graves, Campbells-ville, Mrs. Emma Williams, Mrs. Wilia Warren, and Mrs. Cliff Webster, of Coakley; Mr. L. W. Coakley, Greensburg, and Mr. Tom Ed Coakley, Hogenville. She was a most estimable woman and a life long member of the Methodist church.

Mr. and Mrs. Braxton E. Courts, this place, have issued invitations to the marriage of their daughter, Sybil Jessie, and Mr. Edmond Nelson Leachman of Springfield, Ky. The wedding will be solemnized at the home of the bride March 3rd.

Mrs. Pauline Ryan Smith, wife of H. O. Smith, a groceryman here, died Thursday afternoon after a short illness of heart trouble and bright's disease. She was a native of Adair county, having moved to this county ten years ago. Besides the husband she leaves four daughters, Mrs.

Horace Taylor, Mrs. Minnie Skaggs, Mrs. F. T. Foster, Miss Russell Smith, of Greensburg, and a son Finis M. Smith of Bloomington Ill. The funeral and burial were held here Friday afternoon.

Messrs. Arvest and Ed Hill attended the basket ball game at Columbia last Thursday night. They report a delightful time.

Mr Robert O. Keltner, wife and daughter, visited relatives in the Cool Springs community the first of the week.

Miss Mollie Flowers left the first of the week for Campbells-ville, where she will spend several weeks with relatives and friends.

Mr. Thos. Dowell spent several days at Lyletown last week, on business.

Uncle Robert O. Keltner was on the sick list a day or so last week.

Mr. and Mrs. W. P. Flowers spent several days in Columbia last week, visiting their relatives.

Mr. W. C. Yates and Chapman Dohoney, of Portland and Milltown, were in our midst one day the first of the week.

The good weather for the past two week certainly did get a move on all of our farmers and there was not an idler in the camp, and you have no idea the amount of work that has been accomplished during these two weeks. Ground turned, plant beds burned and sown, grass and oats sown and in fact every thing in the line of farming and some few have planted some of their garden. Everything does certainly come around alright at the proper time. There is no use worrying the least.

Edith.

Farmers are making good use of this beautiful weather preparing for farming.

Mr. P. P. Wesley is on the sick list this week.

Mrs. Valeria Campbell and daughter, Miss Annie, visited friends at Casey Creek Saturday night.

Mr. and Mrs. Frank Neat, of Garlin, have moved to their new home, purchased from Mr. Bill Jones, near this place. We are so glad to have them in our community.
